

# NarcyVerse Comparative Framework

*Awareness — Not Accusation · Patterns, Not People*

## **Orientation: NarcyNarc, MarcyMach, and PattyPath.**

This comparative framework introduces three core characters within the NarcyVerse: **NarcyNarc**, **MarcyMach**, and **PattyPath**. Each represents a distinct behavioral cluster that helps visualize how manipulation, control, and collapse circulate in emotional systems.

**What this is:** A lens for recognition, not judgment. These fictional archetypes help bring clarity to recurring emotional dynamics seen in personal relationships, institutions, and cultural cycles.

**What this is not:** A clinical diagnosis. These are illustrations of *energy flow and motive*, not pathology checklists.
